SUMMARY

Possess a wide range of technical knowledge having completed several projects as well as experience in management, recruitment, consulting, and leadership.

EDUCATION

**Computer Science
(Software Engineering),
Organizational Communication**
DePaul University | Chicago, IL
2013 – 2017 | 3.5 GPA

RELEVANT COURSES

- Object-Oriented Enterprise App and Software Development
- User Interface and Architect
- Mobile App Development (iOS)
- Database Programming
- Distributed Systems
- Technical Writing
- Communication Consulting
- Leadership and Team Building

EXPERTISE

- Java, Python, Swift, C, Scala, HTML/CSS (Bootstrap)
- Oracle SQL, SQLite
- IntelliJ, Eclipse, PyCharm, XCode, Sublime, Git
- Adobe Photoshop, Illustrator, InDesign
- Windows, Mac OSX, Ubuntu

ORGANIZATIONS

- Phi Mu – Rho Mu Chapter
- Phi Sigma Pi – Eta Gamma Chapter

PROJECTS

GroceryTime! – March 2017

- Using Swift, developed an iOS application that allowed users to add new shopping lists, check off items, and enter in items with their prices and quantity to calculate the total cost.

Knowledge Management System – March 2017

- In a team of 8, developed a knowledge management system to store files. I specifically handled username encryption, password hashing, and file encryption using Python's cryptography toolkit, pycrypto.

Logistic Application – November 2016

- Drawing from Object-Oriented Principles and Design Patterns, developed a java application that will manage facilities, items, and transportation to perform order processing, update inventories, generate reports. This includes parsing in XML files.

Movie Rental Database – November 2015

- In Oracle SQL, used PL/SQL blocks, triggers and cursors to develop a database for a video shop to keep track of customers and rentals.

Attendance/Data Spreadsheet – January 2015

- Created a multi-functional excel sheet to keep track of the roster, mark attendance for events, and calculate points rewarded for events attended.

WORK EXPERIENCE

Leadership Events Intern

National MS Society / February 2017 - Present

- Utilize communication skills to solicit silent auction donations.
- Create graphics, invites, RSVP cards, and sponsorship and program booklets with Adobe design to market events

Cash Wrap Supervisor

Adidas / September 2015 - Present

- Approve returns, exchanges, discounts, customer coupons, and employee sales.
- Train employees on cash wrap policies and cash wrap procedures such as how to process sales, returns and exchanges.
- Coordinate visual merchandising for new campaign launches and markdowns.
- Utilize problem-solving skills to handle any customer complaints and assure they leave with satisfaction.

Founding Brother and Secretary

Phi Sigma Pi – Eta Gamma / January 2015 – June 2016

- Utilize Excel to keep track of member roster, attendance for events, and point system to assure all requirements are met.
- Manage calendar and oversee committees to assure that planning for events are on schedule.
- Send weekly updates via email to all members to highlight important announcements and upcoming events.
- Transition new executive board members and committee chairs into their role through training.
